ROAD-BUILDING EXPERIMENTS.

Tar, Oil, Oil Asphalt and Oil Concrete Being Tried.

Experiments are being continued by the office of public roads of the Department of Agriculture to determine the best form of binder to use for road surfacing, preserving the road and laying the dust. Many of these experiments were carried by to insure that the policy will carry. out last year in co-operation with Cornell University. Tar, oil and oil-asphalt preparations have been used, and one road has been surfaced with the new minister. Services at 11 a.m. and 7:30 road has been surfaced with the minister. Services at 11 a.m. and 7:30 oil concrete that has been developed by concrete that has been developed by the surface of the roads as a rule the department. The roads as a rule have stood up well to average heavy traffic, but it is still too soon to give a final verdict on the several materials department says that if the sev-

TO TAKE PRIDE IN YOUR OWN HOME

Is an experience which should come to all married people. No one cares to improve a rented house, and the happiness of home owning is easily within your reach, as it was with the 100 families which bought here.

A small cash payment gives you possession and of the \$28.84 paid monthly you save an average of 50%. This is a rare chance to acquire property, and it is also an opportunity to gain a charming six-room home, every feature of which will delight any woman's heart.

Sample House, 617 Lamont St. N.W., open every day and evening.

Price, \$3,750

Take any oth street car to corner of Lamont street and notice the advantages in neighborhood and the prosperous type of the homes.
